

Samuel Gilbert Public School

2 February, 2012

Dear Parents,

As part of Kindergarten Science, we will be exploring living things and their needs. To capture students' interest each class will have the responsibility of a class pet for one day during Weeks 3 and 4.

The visiting pets will be two pet rabbits, one mini lop and one cashmere mini lop. Some students will be given jobs that involve feeding and refilling water containers. They will not handle the pets and will be instructed not to touch or pat the rabbits.

We are aware that some students may have particular allergies to animal fur. Please fill in and return the slip below if your child will be unable to participate in this activity due to allergies.

Thank you
Ms Richmond
